Morarka, is a professional service delivery organization offering solutions for sustainable agriculture, including Organic Agriculture. Morarka Foundation receives funding support from its parent company Gannon Dunkerley & Company and other Government Departments, as well as international funding agencies.

1. Description of Project / SBU's Aims, Objectives and Deliverables

Morarka Foundation established in 1993 by Shri Kamal M. Morarka, a leading industrialist of India, in memory of his father Late Shri M.R. Morarka, is a professional service delivery organization offering solutions for sustainable agriculture, including Organic Agriculture. Morarka Foundation receives funding support from its parent company Gannon Dunkerley & Company (GDC) and other Government Departments, as well as international funding agencies.

As a leading professional services delivery organization, among the suite of services Morarka Foundation offers one is Morarka-IQCS (internal quality control systems), which assures that farmers / producers enrolling under Morarka-IQCS conform to international organic standards, and other food quality / safety assurance norms and regulations. As such, the process of training of the enrolled producers into the organic package of practices, requirements of organic certification, and quality requirements is an integral component of all organic agriculture development initiatives of Morarka Foundation. In order to enhance the effectiveness of its training programmes, Morarka Foundation is seeking an experienced professional to fill the position of Team Leader – Training.
